Cod: 6653

BLACK refrigerated display cabinet with 6 GN 1/3 x 40h containers, +2°–+5°

Description

A freestanding display cabinet with STATIC COOLING, featuring an elegant design that offers excellent visibility and a generous display surface for the products on show. The internal chamber is cooled by contact and is made of stainless steel with rounded corners. Constructed from solid stainless steel and toughened glass. LED lighting. Built-in refrigeration unit fitted with a silent, hermetic DANFOSS compressor; the display cabinet is equipped with a high-efficiency dual-evaporator compressor, which ensures even distribution of cold air throughout the entire display area, thereby achieving the best possible preservation quality. Sliding rear doors that are easy to pull out for loading products. Operating temperature +2°/+5°C controlled by an ADJUSTABLE DIGITAL THERMOSTAT.
