Cod: 9232099011001

Stainless steel refrigerated cabinet, 2-door, 1,400 litres, -2 to +8 °C, ventilated, monobloc – FC

Description

Why buy it?

This **professional refrigerated cabinet** is the ideal solution for restaurants, patisseries, hotels and all catering businesses requiring ample storage capacity. Thanks **to its stainless steel construction**, it offers high strength and durability, whilst the **ventilated refrigeration system** ensures a uniform temperature throughout the compartment. Designed for intensive use, it features **self-closing doors**, adjustable feet and anti-corrosion treatment – features that enhance its practicality and longevity.

Key features

- **Ventilated refrigeration for optimal performance**
  The **ventilated cooling** system ensures an even temperature distribution inside the cabinet, preventing temperature fluctuations and guaranteeing optimal food preservation.
- **Stainless steel construction**
  The **stainless steel** construction ensures maximum hygiene, wear resistance and ease of cleaning, making it ideal for the food sector. The **external base and rear panels, made of galvanised sheet metal**, provide additional strength and protection against corrosion.
- **Large storage capacity**
  With a **capacity of 1,300 litres**, this freezer cabinet offers ample space for storing large quantities of produce, optimising the organisation of food within the professional kitchen.
- **Adjustable feet for perfect positioning**
  The adjustable feet allow the freezer cabinet to be adapted to different surfaces, ensuring stability and safety, even on uneven floors.
- **Anti-corrosion treatment for a long service life**
  The special treatment applied to the internal and external surfaces protects it from wear and tear and damp, preventing rust and deterioration.
- **Doors with self-closing springs for greater convenience**
  The two doors are fitted with **an automatic spring-return mechanism**, an essential feature for reducing cold air loss and improving energy efficiency. This system ensures the doors close automatically if left open, preventing energy wastage.
- **Internal lighting for optimum visibility**
  The interior lighting makes it easier to locate items, improving efficiency in the kitchen and allowing for better organisation of the space.
- **Automatic defrost system**
  Electric defrosting ensures simple, low-maintenance operation, preventing ice build-up and guaranteeing optimal cooling performance at all times.
- **High performance even in hot environments**
  Designed to operate in demanding conditions, the freezer cabinet maintains a constant temperature between **-2°C and +8°C** , even at ambient temperatures of up to **38°C**.
- **Low energy consumption with R290 refrigerant**
  R290 refrigerant is an environmentally friendly and efficient choice, reducing environmental impact and ensuring low energy consumption.

Technical specifications

- **External dimensions:** 148 x 83 x 201h cm
- **Capacity:** 1300 litres
- **Power supply:** Electric, 230 V, 50 Hz
- **Power consumption:** 0.508 kW
- **Cooling system:** Ventilated
- **Defrosting:** Automatic (electric defrost)
- **Refrigerant:** R290
- **Operating temperature:** -2 to +8°C
- **Net weight:** 164 kg

- **Gross weight:** 189 kg
- **6 shelves** with pairs of rails for optimal use of internal space.

Dimensions

External dimensions	1480x830x2010 mm
Insulation thickness	60 mm
Internal dimensions	1360x632x1397 mm
Packaging dimensions	1505x855x2080 mm

Technical specifications

Capacity	1400 Lt
Defrosting	automatic
Electrical Power	0.508 kW
Energy efficiency class	D
Frequency	50 Hz
Material	stainless steel
Maximum room temperature	38 °C
Net capacity	1300 Lt
Net weight	164 kg
Operating temperature	-2 +8 °C
Power supply	Electric
Refrigerant gas	R290
Refrigeration	ventilated
Thermostat	electric
Voltage	220 V, 240 V
Weight including packaging	189 kg

Standard equipment

Included	6 GN 2/1 racks and 6 pairs of runners
