Cod: 6712

Klassen refrigerated display cabinet for bottles, with square glass panels and front-opening design, 101.5 × 62 × 124h cm, +4°/+8°C

Description

Klassen VENTILATED refrigerated display cabinet with an exclusive design, featuring large double-glazed panels (2.2 cm insulation) to ensure maximum product visibility and minimum energy consumption. Frame and base made from stainless steel. Suitable for both floor-standing and counter-top installation. 3 height-adjustable shelves, easily removable, with integrated LED lighting (cool light) with no visible cables... Access to the interior from both sides via sliding doors (with double-glazed panels). Built-in DANFOSS refrigeration unit, concealed from the customer’s view. Automatic defrosting. Adjustable digital thermostat +5/+15°C
