Ventilated refrigerated display cabinet with white LEDs, 62×67×67h cm, +2°/+6°C

Description

An elegant and sophisticated freestanding ventilated refrigerated display cabinet with an exclusive and particularly eye-catching design, conceived to take the concept of product display to the highest level, making your products look as though they were jewels. Viewed from any angle, the display cabinet's unique design will enhance whatever you wish to showcase, adding a touch of luxury and exclusivity. A state-of-the-art design with square, angular lines and a wide opening featuring rear doors that swing out to 90 degrees, making both use and cleaning a breeze. Perfect for displaying gourmet products such as cheeses, caviar, oysters, wine, champagne, desserts and exotic fruit, with the aim of always showcasing the displayed product to its best advantage. Spectacular construction with no visible fixings on the external structure to enhance the design and facilitate cleaning. The front and side glass panels are tempered and constructed using a double-glazed system, as are the doors, to ensure perfect visibility of the displayed product at all times whilst preventing any form of condensation. Furthermore, the resulting thermal insulation delivers exceptional energy savings. Intermediate shelf support bracket (optional). Maximum opening angle to facilitate handling of all types of products. The absence of a drain hole eliminates any installation issues. Powerful refrigeration unit with a Danfoss compressor. Adjustable digital thermostat with blue LEDs.

Dimensions

External dimensions	620x670x670 mm

Technical specifications

LED type	rgb
Net weight	80 kg
Operating temperature	+2 +6 °C
Refrigerant gas	R600A
Voltage	230 V
