Cod: 6695

Compact refrigerated display cabinet with rear opening, 101.5 × 62 × 95h cm, +4 to +8°C

Description

An extremely versatile display cabinet with ventilated cooling, designed to adapt to any type of space or décor, whether as a countertop, floor-standing or under-counter unit, whilst making the most of the display space. The front, top and side panels are constructed using a double-glazed unit, as are the sliding doors, to ensure perfect visibility of the displayed products at all times whilst preventing any form of condensation. Height-adjustable shelves with individual integrated lighting featuring a double row of LEDs and ample display space. Flat top surface for additional use of the space. Self-closing doors. Display cabinet side profiles illuminated with white LEDs or RGB control (optional).
