Cod: 7166

Ventilated stainless steel pastry display cabinet, 74×99×201h cm, -10 to -22°C

Description

Stainless steel refrigerated cabinet for patisseries with a capacity of 737 litres, capable of holding 54 x 5-litre trays. The cabinet features a built-in refrigeration unit, forced-air cooling and a motor compartment with insulated side panels. The evaporator is concealed to maximise available space. Temperature control is via a digital thermostat, and there is an electric heating element around the door frame to prevent condensation build-up. Automatic defrosting with an electric heating element and automatic control of the defrost temperature. Automatic evaporation of condensation water. Evaporator treated for corrosion resistance. Door with a return spring and reversible hinge. Door locks with a key. Door seal removable without tools. The cabinet is fitted with an internal light, rounded corners, height-adjustable stainless steel feet, and external base and rear panels made of galvanised sheet metal.

Dimensions

External dimensions	740x990x2010 mm
Insulation	60 mm
Packaging dimensions	765x1015x2200 mm

Technical specifications

Capacity	737 Lt
Electrical Power	0.75 kW
Energy efficiency class	D
Maximum room temperature	43 °C
Net weight	162 kg
Operating temperature	-10 -22 °C
Weight including packaging	188 kg

Standard equipment

Included	10 grids and 20 guides
