Cod: 1847

Electric bread oven with 6 baking trays and a single chamber

Description

Bread oven with a baking surface made of refractory material, ensuring perfect heat distribution. The temperature is controlled electronically. The maximum temperature of the baking chamber is 450°C. The front panel is made of stainless steel sheet, the side panels of pre-painted sheet metal, and the control panel is positioned on the right-hand side. There is one steam vent located on the rear left-hand side. Interior: Fireclay baking surface. Side and top panels made of aluminium-coated sheet metal. Thermal insulation made of rock wool.

Dimensions

External dimensions	1800x1870x450 mm
Internal dimensions	1250x1250x220 mm

Technical specifications

Baking tray capacity	6 600 × 400 mm
Electrical Power	13 kW
Frequency	60 Hz
Net weight	480 kg
Power supply	Electric
Voltage	400 V
