Cod: 112240020622016

Electric cooker with 4 cast-iron hotplates and an open compartment, 10 kW, 80×70×85h cm

Description

Electric cooker with 4 hotplates and an open storage compartment, with a stainless steel body. Knobs made from heat-resistant material with functional screen-printed markings around the edge.

Heat is generated by square, radiant cast-iron electric hotplates. Each hotplate has three heating elements, embedded in a layer of insulating material. Each hob is fitted with a control switch that allows the power to be adjusted from maximum to minimum across seven settings. Safety is ensured by a temperature limiter located inside the hob.

Stainless steel worktop to ensure the plates fit perfectly, facilitate cleaning and protect the electrical components from spilled liquids. Front cladding in AISI 304 stainless steel.

The hotplates are flush with the worktop, creating a smooth surface that makes it easier to move pans around.

A drip tray is supplied as standard.

The worktop is laser-cut to ensure a seamless ‘end-to-end’ fit between worktops and secure fastening of the worktops to one another.

Height-adjustable stainless steel feet.

. 100% Made in Italy.

Dimensions

External dimensions	800x700x850 mm

Technical specifications

Electrical Power	10 kW
Net weight	101 kg
Power supply	Electric
Voltage	400 V
