Cod: 7375

Double-chamber rotating gas pizza oven with curved glass panels, 128×109×165h cm

Description

A circular pizza oven with ample lighting, allowing you to monitor the cooking process directly on a rotating ceramic plate. Its key features are productivity, cost-effectiveness and impressive design. The desired temperature is selected via a high-safety gas thermostat and monitored by a digital thermometer. You can prepare the perfect pizza in no time at all by placing it on a plate or directly onto the ceramic ‘Additional Support’ plate. They are made entirely of stainless steel and fitted with all the safety devices required by international organisations. Gas consumption: 1.8 kg/h.

Please note: payment for this product can only be made by bank transfer, PayPal or credit card.
