Cod: 7504

Self-service counters with a refrigerated basin on an open-fronted unit, 150 × 70 × 90h cm

Description

Self-service bain-marie counters with open-plan compartments are designed to help you get the most out of your investment. A wide range of components, practical accessories and materials provide the best solution to all your requirements for functionality and ergonomics. Technology, aesthetics and 18/10 stainless steel construction guarantee a product of the highest quality, which is reliable and meticulously crafted down to the smallest detail. These counters are the ideal solution for any business where varying requirements for display and distribution mean that the positioning and choice of components need to be adapted: airports, railway stations, motorway service stations, catering companies, etc.
