Cod: 108140024503004

4-sided ventilated glass display cabinet for pastries, 0 +8°C, black, capacity 319 litres, 65×65×195h cm

Description

Why buy it?

This **professional ice-cream display cabinet** is the perfect solution for anyone looking for an effective yet elegant way to showcase their products. Thanks to its modern, four-sided glass design, it ensures excellent product visibility from every angle, attracting customers' attention and showcasing your specialities to their best advantage. Ideal for ice-cream parlours, cafés, restaurants or venues serving desserts, it offers a large capacity and consistent temperatures for impeccable storage. Practicality goes hand in hand with safety, thanks to a range of features designed to simplify day-to-day operations.

Key features

- **Stainless steel and glass construction**
  Sturdy, hygienic and easy to clean, the structure is made of **stainless steel** to ensure maximum durability and long-lasting performance. The **four sides made of toughened glass** offer a full view of the contents, showcasing the ice creams on display.
- **Ventilated cooling for consistent temperatures**
  The **ventilated** system distributes the cold air evenly across all levels, ensuring that every ice cream tub is kept at **the ideal temperature between 0 and +8**, even with frequent opening of the doors.
- **Digital thermometer and electronic control**
  The **built-in digital thermometer** allows for constant monitoring of the internal temperature, whilst the **electronic control** enables you to set it easily and precisely, optimising storage according to your needs.
- **Internal LED lighting**
  The energy-efficient LED lighting enhances the colours and presentation of the ice cream, creating an eye-catching visual effect that encourages purchases, without overheating the interior.
- **5 tempered glass shelves**
  The unit comes with **5** height-adjustable **tempered glass shelves**, ideal for organising the display in a flexible and tidy manner.
- **Automatic defrost**
  The **automatic defrost** system prevents ice build-up, maintaining optimum performance over time and minimising maintenance.
- **Castors with braking system**
  Fitted with **4 swivel castors**, the display cabinet can be easily moved for cleaning or repositioning. Two castors are fitted with **safety brakes** to ensure stability once in position.
- **Lock with integrated latch**
  To protect products even during closing hours or in shared spaces, the door is fitted with **a security lock**, providing an extra layer of security for public and commercial premises.

- **Operating temperature**: 0 / +10 °C
- **Cooling**: ventilated
- **Defrosting**: automatic
- **Power supply**: 230 V – 50 Hz – 0.35 kW
- **Refrigerant**: R290
- **Energy efficiency class**: C
- **Climate class**: 4
- **Net weight**: 189 kg
- **Dimensions (WxDxH)**: 65x65x195h cm

Dimensions

External dimensions	650x650x1950 mm
Internal dimensions	588x555x1208 mm
Packaging dimensions	760x740x2050 mm

Technical specifications

Capacity	452 Lt
Climate class	4
Defrosting	automatic
Electrical Power	0.35 kW
Electricity consumption	6.55 Kw/24h
Energy efficiency class	C
Frequency	50 Hz
Net capacity	319 Lt
Net weight	189 kg
Noise levels	44 db
Operating temperature	0 +10 °C
Power supply	Electric
Refrigerant gas	R290
Voltage	230 V
Weight including packaging	211 kg

Standard equipment

Included	5 glass shelves, 530 x 417 mm
