Cod: 2595

Kitchens with 6 electric hobs + 1/1 GN fan-assisted electric oven + compartment with door

Description

Kitchens with 6 electric hobs + 1/1 GN fan-assisted electric oven + compartment with door. Stainless steel construction. Press-formed, double-walled oven door and sturdy handles. Knobs made from thermosetting plastic. Heating is provided by round cast-iron electric hotplates. The heating element is fixed to the base of the hotplate, embedded in a layer of insulating material. Each hotplate is fitted with a control knob allowing the power to be adjusted from maximum to minimum across seven settings. Safety is ensured by a temperature limiter located inside the heating plate. The worktop is moulded and features an inverted counter-indentation to ensure the plates fit perfectly, facilitate cleaning and protect the electrical components from spilled liquids.

1/1 GN forced-air electric oven with a compartment and door. Removable oven rack made of stainless steel rod coated with a layer of protective material. Oven base made of cast iron and reinforced with a series of ribs. Heating is provided by special high-temperature-resistant steel heating elements positioned beneath the oven floor and on the ceiling of the cooking chamber, whilst air circulation is ensured by a stainless steel fan driven by a powerful electric motor. Option to select various heating modes, including both static and forced-air heating, as well as bottom-up convection, grill and all-round heating. Fitted with a thermostat allowing the temperature to be adjusted between 120°C and 310°C. Manually resettable safety thermostat to prevent overheating. The cooking chamber and oven door are insulated with a layer of high-temperature-resistant ceramic fibre. Height-adjustable stainless steel feet.

. 100% Made in Italy.

Dimensions

External dimensions	1200x700x850 mm

Technical specifications

Electrical Power	18.6 kW
Net weight	100 kg
Power supply	Electric
Voltage	400 V
Volume	1.15 m3
