Cod: 2596

6-Plate Electric Hob

Description

Top-of-the-range 6-plate electric hob. Stainless steel body. Knobs made from thermosetting plastic. Heating is provided by round cast-iron hotplates. The heating element is fixed to the base of the hotplate, embedded in a layer of insulating material. Each hotplate is fitted with a control switch that allows the power to be adjusted from maximum to minimum across seven settings. Safety is ensured by a temperature limiter located inside the hotplate. The moulded worktop features a reverse embossed design to ensure the hotplates sit perfectly in place, facilitate cleaning and protect the electrical components from spilled liquids.

. 100% Made in Italy.

Dimensions

External dimensions	1200x700x250 mm

Technical specifications

Electrical Power	15.6 kW
Net weight	68 kg
Power supply	Electric
