**Cod: 8407**

# Countertop lava stone gas grill for meat and fish, 60×65×48h cm

**Description**

The **tabletop lava stone gas grill for meat and fish** is a **versatile and easy-to-use** appliance that ensures food is cooked to perfection when placed directly on the cast-iron grates.

**Ensure high performance** and excellent-quality food in your establishment by relying on the experience and professionalism of Ristoattrezzature.

**The countertop gas lava stone grill for meat and fish** that we offer also makes flexibility its key strength, serving as the ideal piece of equipment to complement your workspace in a practical and functional way. **Suitable even for small spaces**, you can choose whether to mount it on a worktop or rest it on a piece of furniture.

**Ideal for professional kitchens wishing to offer customers delicious grilled dishes of all kinds** – meat, fish, vegetables and much more – **the grill preserves the authentic flavour of the ingredients**.

Design and operation

When planning the layout of your premises, it is important to take into account both your customers' needs and the space requirements in the kitchen. **By purchasing the Ristoattrezzature countertop lava stone grill, you'll be able to create a modular workstation** and fit it into even the smallest of spaces.

This **professional grill for meat and fish** features a sleek, minimalist design; it is **sturdy, safe and reliable**. Its **external dimensions are 60 x 65 x 48h cm, and it weighs 50 kg**.

The **outer frame** is made entirely **of stainless steel** to ensure long-lasting durability and maximum hygiene for your kitchen. **The grates**, on the other hand, **are made of cast iron**. This product therefore combines gas cooking with the properties of lava stone.

**The cooking zones are controlled by two knobs**: this allows you to cook on the grill simultaneously using different temperatures.

Finally, there is a removable **grease-collection drawerat the bottom of the grill**.

Choose to optimise your preparation times with this custom-made, **freestanding gas lava stone grill for meat and fish**, designed specifically for restaurants.

Cooking on lava stone

**Lava stone is an inert material** that allows for **benzopyrene**-free cooking. With our **Ristoattrezzature countertop gas lava stone grill**, you can cook healthily even without using seasonings: the fats from the meat will melt away during cooking, leaving the **food tender whilst preserving all its nutritional value and vitamins**.

**Cooking on lava stone is carried out on a red-hot stone**: simply place meat, fish or vegetables directly onto the griddle.

Cleaning and maintenance

To ensure the grill functions correctly, we recommend **cleaning every part of it daily**.

You can **remove the cast-iron grills and wash them carefully with a damp cloth or with water and mild, non-abrasive detergents**.

After cleaning them, you must heat the grills themselves to allow the cast iron to dry and, finally, **apply a light coat of food-grade oil**.

You'll ensure your professional kitchen is **as clean and hygienic as possible** in just a few simple steps.

Why this is the right product for you

Ristoattrezzature's **freestanding lava stone gas grill for meat and fish** is a high-quality choice that ensures healthy and natural cooking in your restaurant. It is a practical **, compact** product that stands out for:

- **Reliability**
