Cod: 9565174555

Countertop gas fry-top, ribbed griddle, 120×70×29h cm, 27 kW

Description

• It is fitted with an overflow basin for the best cleaning results in the shortest time.

• The load can be left with a trickle of water to replenish what has evaporated, or with a stronger flow to keep the water free of grease and cool enough to prevent evaporation.

• It can be configured for 4 functions simply by ‘placing’ the accessories on top of the hob, without the need for factory-fitted settings.

• The accessories can be purchased separately.

• The functions are: > Direct-heat grill > Griddle > Braising pan

• All versions have a temperature range from 220° to 380°C.

• For thick or particularly fatty cuts of meat, it is advisable to use the direct grill setting at 220°/250°C. This ensures even cooking without burning.

Dimensions

External dimensions	1200x700x290 mm
