Cod: 2240

Static Refrigerated Display Case with Glass Front

Description

Static refrigerated display unit, available as a freestanding or built-in model, diamond-shaped to optimise floor space. Ideal for storing food products in yoghurt shops (fresh fruit and various toppings). Internal base shelf cooled by contact. Constructed from sturdy white-painted metal and toughened glass. Energy-efficient LED lighting with cool light. Built-in refrigeration unit. The top glass panel lowers and locks into place using a special stainless steel mechanism to preserve food when not in use. Supplied with 8 GN 1/6 trays (h6.5 cm). Operating temperature +2°/+5°C, adjustable and monitored via the thermostat located at the rear (operator side). Power supply: 230V.
