Cod: 8732

580-litre static steel freezer cabinet, -18 °C

Description

Freezer cabinet with a white painted steel outer shell. ABS interior. The ‘R’ models feature static plate cooling with a fan to ensure an even temperature; the ‘F’ freezer models feature static cooling on the shelves. Digital thermostat for temperature control integrated into the door. Insulation: 4 cm
for ‘R’ fridge-freezer models; 6 cm for ‘F’ freezer models. Defrosting in the ‘R’ fridge-freezer models takes place when the compressor is off, whilst in the ‘F’ freezer models it is manual. Automatic condensation water evaporation for ‘R’ positive models. Interior with rounded corners to facilitate cleaning. Key-operated door lock
key. Easily removable magnetic seal. Reversible door (an optional kit is required).

Dimensions

External dimensions	777x710x1895 mm
Internal dimensions	650x530x1620 mm

Technical specifications

Capacity	580 Lt
Climate class	4
Electrical Power	0.3 kW
Frequency	50 Hz
Net weight	94 kg
Refrigerant gas	R600A
Temperature	-18 °C
Temperature/humidity	33 °C
Voltage	230 V

Standard equipment

Included	6 fixed shelves, 650 x 525 mm, centre-to-centre distance 210 mm
