Cod: 88430151596

Professional 2-burner gas hob on a cabinet, 19 kW, 40×90×114h cm

Description

Why buy it?

If you're looking for a compact, powerful and reliable **professional gas cooker**, this **2-burner** unit **on a base** is perfect for catering needs. Sturdy, practical and versatile, it allows you to handle any preparation with ease, guaranteeing high-quality results even at the fastest pace. Its **stainless steel** construction makes it particularly durable and suitable for intensive daily use. Thanks to **the** included **LPG conversion kit**, you can easily adapt it to any existing system.

Key features

- **Stainless steel construction**
  Made entirely from high-quality **stainless steel**, this professional cooker guarantees excellent resistance to corrosion, impact and high temperatures. Easy to clean, it retains a flawless appearance over time, even after prolonged use.
- **High-performance gas supply**
  The gas supply allows for rapid and efficient heating, ideal for professional kitchens with heavy workloads. The **total power output of 19 kW** is divided between two high-performance burners (one **7 kW** and one **12 kW**), enabling you to handle both delicate and high-intensity cooking tasks.
- **Pilot flame and piezoelectric ignition**
  Fitted with **a pilot flame** for immediate and continuous ignition, this cooker also features a practical **piezoelectric ignition** system: a simple gesture is all it takes to light the flame, in complete safety and without the need for matches or lighters.
- **Removable cast-iron grills**
  The **cast-iron grills** provide a stable base for all types of cookware, ensuring even heat distribution. Furthermore, they are **removable** to facilitate cleaning and keep the hob in perfect hygienic condition at all times.
- **Adjustable feet**
  The **adjustable feet** allow you to easily adapt the cooker to different surfaces and ensure maximum stability, even on floors that are not perfectly level. An important feature for cooking safely and comfortably.
- **LPG conversion kit included**
  Supplied with **an LPG conversion kit**, the cooker is ready for use with both natural gas and LPG, offering maximum installation flexibility in any professional environment.
