Cod: 100582007000

Stainless steel sink, 160×60×85h cm, 2 bowls with left-hand cantilevered drainer, dishwasher compartment, shelf and EC splashback

Description

Why buy it?

If you're looking for a comprehensive, durable and easy-to-maintain solution for the washing area of your professional kitchen, this **stainless steel sink** is a smart choice. Designed to streamline daily operations, optimise space and ensure impeccable cleanliness, it combines **advanced functionality** with a **robust and hygienic design**. Ideal for restaurants, cafés, canteens and food preparation facilities, it adapts perfectly to every operational requirement.

Key features

- **AISI 304 stainless steel construction**
  Made from **AISI 304 stainless steel**, a high-quality material resistant to corrosion, food acids and moisture. It guarantees maximum **durability**, hygiene and ease of cleaning, even in demanding professional environments.
- **2 spacious and deep basins**
  Equipped with **two basins**, each measuring 40x40x25h cm, ideal for washing crockery, utensils and food simultaneously. The generous dimensions allow for smooth, unhindered work without items overlapping.
- **Integrated overhanging drainer**
  The practical **overhanging drip tray** makes it easy to drain freshly washed crockery, keeping the worktop dry and tidy. A functional detail that makes all the difference to the workflow.
- **Lower storage shelf**
  The lower **storage shelf** allows you to organise washing-up liquid, utensils or containers, optimising space and keeping everything within easy reach. Sturdy and easy to clean, it is also perfect for heavy loads.
- **Dedicated dishwasher compartment**
  The **integrated dishwasher compartment** allows you to fit the appliance directly beneath the sink, saving valuable space and making it easier to load and unload.
- **10 cm high rear splashback**
  The **10 cm** splashback protects the wall from water splashes and makes cleaning the washing area easier, maintaining high standards of hygiene.
- **Adjustable feet**
  The adjustable stainless steel feet allow the height of the sink to be adjusted to suit operational requirements and ensure perfect stability even on surfaces that are not perfectly level.
