Cod: 2535

ABS Plate Evaporator Refrigerated Cabinet, 570 litres

Description

This **professional fridge**, featuring static cooling and an internal plate evaporator situated directly within the cold compartment, has an ABS interior, whilst the external base and rear panels are made of galvanised sheet metal. The positive temperature refrigeration (+2/+8°C) is static, and the cold is generated by a dedicated evaporator, which absorbs heat and discharges it to the outside via a radiator situated at the rear of the unit. The temperature of the fridge can be adjusted via a convenient thermostat; furthermore, defrosting is carried out periodically, whilst condensation water is automatically drained.

The **fridge with an evaporation plate** measures 77.7 x 69.5 x 189.5h cm and is designed to accommodate plastic-coated racks (small or large) for the neat storage of fruit, vegetables and all types of raw ingredients. These accessories can be selected and purchased as additional options in the dedicated section of the Ristoattrezzature online shop. As standard, however, you will receive 3 racks measuring 63x48 cm and 1 rack measuring 63x29 cm.

How do you clean a professional refrigerated cabinet?

Cleaning refrigerated equipment is an essential task that must be carried out regularly. After unplugging the appliance, you must carry out the most important step before proceeding with the actual cleaning: remove all items from the racks. Once the fridge compartment has been emptied, remove the removable shelves and place them in a bowl filled with hot water. Next, simply wipe the surfaces with a damp cloth and, once wet, wipe them again with a natural mixture of water, lemon and bicarbonate of soda.

Dimensions

External dimensions	777x695x1895 mm
Packaging dimensions	840x760x2210 mm

Technical specifications

Capacity	570 Lt
Electrical Power	0.18 kW
Energy efficiency class	B
Frequency	50 Hz
Net weight	93 kg
Operating temperature	+2 +8 °C
Voltage	230 V
Weight including packaging	107 kg

Standard equipment

Included	3 x 630x480 grids + 1 x 650x290
