Cod: 983400202332

Countertop refrigerated display cabinet, 70.2 × 56.8 × 68.6 (h) cm, with curved black glass on all four sides, 120 litres, 0 +12 °C

Description

Compact yet spacious, our **countertop refrigerated display cabinet for bars is a practical and useful unit that can be easily placed on your bar counter**.

It is the perfect solution for displaying your fresh products whilst keeping them at the right temperature. It features adjustable shelves and easy access for placing items in and taking them out.

Ideal **for delis, rotisseries, patisseries and bars**.

Design and operation

The Ristoattrezzature countertop refrigerated display cabinet measures just **70.2 x 56.8 x 68.6h cm** and features a modern design with **four double-glazed panels on all sides**. This material not only ensures maximum visibility inside but also maintains a stable internal temperature. With no energy loss, your products will always stay fresh and energy savings are guaranteed.

The **curved front glass panel** allows a full view of the contents, whilst **the black ABS frame** ensures robustness and stability. **The sliding doors providing access to the display cabinet are positioned at the rear** to make the operator's work easier.

Fitted with **internal LED lighting**, this countertop display cabinet for the catering industry also features **two height-adjustable PVC-coated shelves**. The feet are equally adjustable, ensuring the unit remains stable when placed on a counter.

This professional countertop refrigerated display cabinet is designed for the storage of fresh food at above-freezing temperatures. It has **a capacity** of **120 litres** and **weighs 60 kg**.

The **operating temperature** is adjustable from **0 to +12 °C**. **The cooling system is ventilated** and operates via an evaporator located outside the chamber, which distributes the cold air evenly.

It is electrically powered, with a **voltage of 230V and a power rating of 0.16 kW**

Cleaning and maintenance

The countertop refrigerated display cabinet for delicatessens and bars is easy to clean. Once the power has been disconnected, **remove the shelves and wash them with water, soap and a soft cloth**. **The same solution can be used for the glass panels**, which should be dried with a dry cloth to prevent streaks.

The condenser is maintenance-free and the condensation water evaporates automatically. **The appliance** also **defrosts automatically**, requiring no manual intervention.

Why this is the right product for you

Compact, lightweight and with excellent capacity, the Ristoattrezzature refrigerated display cabinet is **practical to install and easy to assemble**. You can position it wherever you like by adjusting the shelves and feet to suit your needs.

Its low **energy** consumption places the display cabinet in **energy class C, with an annual consumption of 3,265 kWh**. A professional piece of equipment that will help you **keep your energy bills low whilst protecting the environment**. **The refrigerant used** is, in fact, **R290**. A **100% natural** refrigerant that is environmentally friendly whilst also **ensuring excellent thermodynamic performance**.
