Cod: 103892014

Stainless steel sink, 60×70×85h cm, 1 bowl with splashback, EC

Description

Why buy it?

- **High-quality material**: Made from **AISI 304 stainless steel**, the sink is corrosion-resistant and easy to clean, ensuring hygiene and long-lasting durability.
- **Practical design**: With a spacious bowl and an additional shelf, this sink optimises workspace, making every task simpler and more efficient.
- **Suitable for professional environments**: Ideal for restaurants, workshops and industrial kitchens, it is designed to meet the highest standards of practicality and durability.
- **Versatility**: The inclusion of **adjustable feet

Versatility: The **adjustable feet** ensure stability on any type of floor, making it ideal for different space configurations and operational requirements.

Key features

- **AISI 304 stainless steel**: This high-quality material guarantees resistance to impact, scratches and corrosion, ensuring the sink remains in good condition even with heavy use. The smooth, polished surface is easy to clean, maintaining high standards of hygiene.
- **Spacious bowl**: With internal dimensions of **40x50x25h cm**, the bowl offers sufficient space for washing large utensils and pots, making it ideal for the demands of a professional kitchen.
- **Rear splashback**: Protects the wall behind the sink from water splashes, improving hygiene in the kitchen and reducing the need for frequent cleaning.
- **Lower shelf**: Adds useful storage space for detergents, utensils or other necessary accessories, optimising the organisation of the workstation.
- **Adjustable feet**: These allow the height of the sink to be adjusted to suit the user's needs, ensuring comfort and stability during use.

Technical specifications

- **External dimensions**: 60 x 70 x 85h cm
- **Bowl dimensions**: 40 x 50 x 25h cm
- **Material**: AISI 304 stainless steel

The tap hole is not included

The photograph is for illustrative purposes only. The product may show traces of cleaning agents used to clean the steel during production; these can be removed by normal cleaning of the steel. The product may have minor scratches resulting from the normal handling of industrially manufactured steel.
