Cod: 106302011

Stainless steel table, 200 × 60 × 85h cm, on legs with a frame

Description

Why buy it?

A professional table must be more than just a surface: it must offer **sturdiness**, **durability** and **versatility** in any working environment. This **stainless steel** model, with **a frame-reinforced structure**, meets all these requirements, combining clean lines and functionality in a single, compact and high-performance solution. Perfect for professional kitchens, food processing facilities, catering venues and any environment where **hygiene and sturdiness** are essential.

Key features

- **High-quality AISI stainless steel construction**
  The entire table structure is made of **stainless steel**, a material renowned for its **high resistance to corrosion**, rust and chemicals. This makes it ideal for daily, intensive use in environments where hygiene and cleanliness are non-negotiable requirements. The smooth, uniform surface also facilitates sanitisation.
- **Integrated reinforcement frame**
  The table is fitted with **a perimeter frame** that further enhances the stability of the entire structure. This feature enables it to withstand **heavy workloads** without warping or bending, increasing the reliability of the furniture even under the most demanding conditions. Ideal for supporting equipment or as a worktop for heavy-duty tasks.
- **Compact and functional design – 200x60x85h cm**
  Its compact dimensions make it perfect for **optimising space** without compromising on practicality. With a width of 200 cm and a depth of 60 cm, it fits easily into kitchens of any size, whilst maintaining a standard working height of 85 cm, ideal for working in an ergonomic position.
- **Easy to clean and sanitise**
  Thanks to its high-quality materials and minimalist design, the table can be **sanitised quickly**, reducing the risk of contamination and complying with HACCP regulations. The absence of sharp edges or crevices ensures thorough cleaning in every nook and cranny.
- **Guaranteed stability on any surface**
  The **sturdy legs**, also made of stainless steel, ensure **exceptional stability** even on uneven surfaces or with unbalanced loads. The frame further contributes to even weight distribution and the overall safety of the unit.

Technical specifications

External dimensions: 200 x 60 x 85h cm

. 100% Made in Italy.

Dimensions

External dimensions	2000x600x850 mm
