Cod: 983400215532

Countertop refrigerated display cabinet, 68.2 × 45 × 67.5h cm, curved glass on all four sides, black glass, 100 litres, 0 +12 °C

Description

The **professional countertop refrigerated display cabinet** for the catering industry is a kitchen appliance designed to store **fresh and/or cooked produce** for long periods. You can choose the model that suits you best from the Ristoattrezzature catalogue.

Four double-glazed panels help maintain a constant temperature and provide a clear view of your food.

Choose the **professional countertop refrigerated display cabinet** for catering for your small or medium-sized business. Its compact design ensures it fits easily onto the counter in rotisseries, cafés or supermarkets. **You can easily store first courses, main courses, sandwiches, toast, desserts** and much more **inside**.

Design and operation

The design of our **professional countertop refrigerated display cabinet** for delicatessens is simple and functional. Ideal for storing your products effectively and with ease. It has been designed for practical use and to take up minimal space.

The **external dimensions of this model are 68.2 x 45 x 67.5h cm**, it has a capacity of **100 litres** and weighs **39.1 kg**.

It is constructed from **black plastic**, and the professional countertop refrigerated display cabinet features glass panels on all four sides. The **front glass panel has a curved design**, whilst the rear doors are sliding. Inside, **LED lighting is used** to prevent food from overheating and to ensure proper preservation.

The display cabinet's refrigeration system **is ventilated**, ensuring even cooling across every shelf. Two plastic-coated shelves are supplied, measuring **61 x 24 cm**: these are easy to remove and adjust to suit your needs.

You can easily set the **operating temperature** within a range **of 0°C to +12°C** using the digital display on the front. It is electrically powered, with a power rating of **0.16 kW** and a **voltage of 230 V**. The energy efficiency class is B.

Cleaning and maintenance

Ensure your professional equipment is kept clean at all times, whilst guaranteeing excellent performance in the kitchen.

Before you begin, empty the interior of **the professional** supermarket **countertop refrigerated display cabinet** of plates and food, then remove the shelves and wash them separately. Now clean the unit – inside and out – and finally wipe down the glass panels.

The best approach is to use **gentle, natural cleaning products and a non-abrasive sponge**. Finally, the **automatic defrost** function makes cleaning easier by eliminating the need for manual defrosting, whilst the **maintenance-free condenser** ensures your professional equipment continues to operate correctly for longer.

Why this is the right product for you

Choose the **professional countertop refrigerated display cabinet** for your catering business and meet your customers' needs by offering products that are always fresh. Its compact design and ease of use make this unit an indispensable feature in your dining area.

Easy to position, easy to move and easy to clean. It meets your professional requirements, and you can adjust the four feet at the base to the desired height. Choose a product tailor-made for you.

The refrigerant used is R290: natural and high-performance. Save on your energy bills.

Buy the **professional countertop refrigerated display cabinet** from Ristoattrezzature at a competitive price. **Discover the offers and all the technical details in our online catalogue**. Complete your purchase in a single click.
