Cod: 100870842067001

Upright fridge-freezer, 75.4 × 56.4 × 84.5h cm, 140 litres, dual temperature range +5 to -25 °C, with hinged door and low energy consumption

Description

Why buy it?

This chest fridge-freezer is the perfect choice for those seeking **versatility** and **optimal use of space**, without compromising on **safety** and **energy efficiency**. It is ideal for professional environments such as restaurants, delis, canteens and kitchens that require both positive and negative refrigeration in a single unit. Sturdy, easy to handle and with attention to detail, it allows you to safely store a wide range of food, from frozen to fresh produce.

Key features

- **Dual temperature control from +5 to -25 °C**
  Thanks to the adjustable dual temperature setting, you can use this chest freezer as both a fridge and a freezer. This feature allows for maximum **operational flexibility**, easily adapting to seasonal requirements or different types of produce.
- **Sturdy and functional hinged door**
  The hinged door is designed to ensure a **secure seal** and facilitate access to the interior compartment. Its solid construction ensures a long service life and a perfect seal, which helps maintain the set temperature.
- **Pre-painted sheet steel exterior**
  The outer casing is made from **pre-painted steel**, a durable, easy-to-clean material that is ideal for professional environments. It also offers good resistance to impact and corrosion.
- **Interior in embossed sheet metal**
  The **embossed sheet metal** interior lining ensures greater hygiene and durability, preventing scratches and marks. It also makes daily maintenance and cleaning easier.
- **Clearly visible rotor thermometer**
  The analogue thermometer allows you to **quickly check the** internal **temperature**, ensuring food is always stored correctly.
- **Adjustable mechanical thermostat**
  Temperature control is easy and intuitive, thanks to the **mechanical thermostat**. It allows you to set the ideal range according to your operational needs.
- **Manual defrost**
  The **manual defrost** system offers greater control over maintenance operations and allows you to decide when to defrost, preventing unexpected interruptions to the refrigeration cycle.
- **Upper storage basket included**
  A handy **top storage basket** is included, perfect for separating frequently used or small items, making the most of the interior space.
- **Wheels for easy movement**
  Fitted with **castors**, this chest can be moved easily, even by just one person, making it easier to clean and reorganise the space in your premises.
- **Lockable**
  The **lock** provides extra protection for your products, particularly in shared areas or where there is a risk of unauthorised access.

Technical specifications

- **External dimensions:** 75.4 x 56.4 x 84.5h cm
- **Packaging dimensions:** 77 x 58 x 88h cm
- **Total capacity:** 140 litres
- **Energy class:** E
- **Annual electricity consumption: 182 kW/year**
- **Refrigerant: R600A**
- Power**supply: Electric**
- **Operating temperature:** from **+5 °C to -25 °C**

Dimensions

External dimensions	754x564x845 mm
Packaging dimensions	800x600x1000 mm

Technical specifications

Capacity	140 Lt
Defrosting	manual
Electricity consumption	182 Kw/anno
Energy efficiency class	And
Net weight	24 kg
Operating temperature	+5 -25 °C
Power supply	Electric
Refrigerant gas	R600A
Weight including packaging	34 kg

Standard equipment

Included	1 upper storage basket
