Cod: 98410210061293

White countertop sushi display fridge, 117.7 × 42 × 26.5h cm, 4 GN 1/3, with curved glass and built-in motor

Description

Your kitchen simply must have a **countertop refrigerated sushi display cabinet** for sushi bars, restaurants and fast-food outlets. This professional-grade equipment is designed to preserve the organoleptic qualities of your products for a long time.

Ristoattrezzure has a wide selection in its catalogue to ensure efficiency and functionality. Choose the ideal design and size for your catering business.

The **compact design and positive temperature** are all you need to guarantee excellent service and ensure your products are always fresh.

Design and operation

The **professional countertop sushi display fridge** boasts a highly attractive, elegant and sophisticated design. It is the ideal piece of equipment for any type of catering business wishing to offer its customers consistently fresh products.

The **professional countertop refrigerated sushi display cabinet for** sushi bars measures **117.7 x 42 x 26.5h cm**, has a built-in motor and can hold up to 4 GN 1/3 trays, 4 cm high, which are supplied as standard.

The display cabinet is made of glass, the outer casing is white plastic, and the rear doors are sliding to allow for easy loading and unloading of the sushi inside.

The curved front glass is designed to showcase the product more effectively on the counter. The display is electrically powered with a power rating of 0.18 kW and **uses static cooling**.

The internal temperature can be adjusted from 0°C to +12°C and is ideal for keeping sushi fresh. Use the external digital display to adjust the temperature. Inside, **the LED lighting** showcases the product in every detail without affecting its temperature.

Cleaning and maintenance

This professional countertop refrigerated sushi display cabinet for fast food outlets is designed to preserve the organoleptic properties of the food, prevent contamination and be easily cleaned.

To clean it correctly, we recommend unplugging it from the mains, emptying the display of the supplied trays and wiping every corner with a **soft cloth and a mild kitchen detergent**.

Keep your kitchen equipment in top working order with regular cleaning. **The automatic defrost function** ensures the unit always operates at peak performance without any manual intervention.

Why this is the right product for you

Ristoattrezzature's **professional countertop refrigerated sushi display cabinet** is designed for sushi bars and businesses that feature fresh fish on their menus.

Store and display your products correctly by choosing the ideal refrigerated display cabinet to ensure **high performance** and add functionality to your workspace.

Its compact design and **energy class B rating** are its key strengths. You can, in fact, keep it running for as long as necessary without excessive energy consumption (just 451 kWh per year).

Easily decide where to place your display cabinet and ensure impeccable service. Excellent value for money and low energy consumption make this display cabinet an essential item for your catering business. **Professional equipment designed for small and medium-sized businesses** with intensive use.
