Cod: 98410580061360

White countertop sushi display fridge, 135.2 × 42 × 26.5h cm, 5 GN 1/3, with curved glass and built-in motor

Description

This **white professional sushi display fridge** is designed for installation in Asian restaurants, delicatessens and establishments that offer sushi on their menus.

The unit serves a dual purpose: **storage and display**. The **curved front glass panel** provides a **clear view of the sushi**, whilst the positive temperature keeps it fresh for as long as required.

The **countertop sushi display cabinet is white with curved glass** and is also fitted with **5 GN 1/3 food trays**. Ideal for storing sushi and easy to clean.

Buy it to ensure consistently high performance and to display your food with elegance.

Design and functionality

A sleek and sophisticated design characterises our sushi display cabinet for the catering industry, which is perfectly suited to storing this type of food.

Its clean, modern lines ensure the unit blends seamlessly into any interior setting, whether placed directly on the counter in the dining area. The **curved front glass** provides a panoramic view of the sushi, which is further enhanced by **the cool white LED interior lighting**. This lighting does not overheat the food and has no impact on energy consumption.

The sushi display cabinet features **a glass** structure **and a white plastic base**, fitted with **sliding doors at the rear** for easy access to the display.

The **5 included food trays, measuring GN 1/3** and 4 cm high, are equally easy to remove. **The display cabinet's operating temperature is adjustable between 0°C and +12°C** via **an external digital thermostat**. The temperature setting can be adjusted using the dedicated buttons on the back.

The sushi display cabinet's motor is built into the right-hand side, covered by a plastic panel, whilst the **cooling system is direct static**.

It is powered by electricity at a voltage of 230 V, **a frequency of 50 Hz** and **a power rating of 0.18 kW**.

The dimensions of **the Ristoattrezzature refrigerated sushi display cabinet** are **135.2 x 42 x 26.5h cm,** with a **gross weight of 40.5 kg**. The feet at the base ensure maximum stability on a worktop or other surface.

Cleaning and maintenance

Regular cleaning of the sushi display cabinet is essential to **prevent contamination from raw fish**.

This is why it is advisable to schedule regular cleaning sessions to ensure the interior of the display cabinet is kept as clean as possible.

The **stainless steel trays** are all **removable and can be cleaned individually**, in accordance with industry standards.

Thanks to **the rounded internal corners**, you can remove all dirt simply by using a **kitchen cleaner**. Avoid abrasive sponges and harsh products to prevent damage to the steel's protective coating.

The refrigerated sushi display cabinet is fitted with **an automatic defrosting system**, meaning it keeps its evaporator clean at all times without any manual intervention. In this way, the unit consistently delivers excellent performance over time without the need for manual intervention.

Why this is the right product for you

Choose the **white sushi display fridge** if you're looking for an elegant yet practical display unit. Its **attractive design** and **ease of use** make it an excellent work companion.

The model we're offering comes fully equipped with:

- **5 stainless steel trays, 4 cm high**.
- **digital thermostat**
- **cool LED lighting**

It offers excellent value for money and display capacity. Customers can **choose items from the display cabinet themselves**, whilst you ensure your sushi stays fresh. **Durability and high performance** characterise this unit, which is rated **Energy Class B**, with an annual energy consumption of approximately **1,546 kWh**. **The R290 refrigerant** used is a **100% natural, ozone-friendly** substance **that ensures excellent thermodynamic performance**.
