Description

Safety is ensured by a temperature limiter located inside the hotplate.

The worktop is made of pressed AISI 304 stainless steel and features a reverse deep-drawn edge to ensure the plates fit perfectly, facilitate cleaning and protect the electrical components from spilled liquids. The front cladding is made of AISI 304 stainless steel.

The worktop finish features laser-cut edges to ensure the worktops fit ‘end-to-end’ and are securely fastened together.
