Cod: 10029002691982

Professional electric countertop fry top with ribbed griddle, 4.4 kW, 73×50×23h cm

Description

The **Ristoattrezzature professional electric countertop fry top with ribbed griddle** is the ideal piece of professional equipment to complete your restaurant's fit-out. Choose a **reliable, durable and versatile** product.

Optimise your space and, above all, reduce your dish preparation times whilst ensuring your customers receive a high-quality service.

The **Ristoattrezzature professional electric countertop fry top with ribbed griddle** is **ideal for cooking foods such as steaks, burgers, fish or vegetables**. **Highly popular in restaurants, pubs, sandwich bars, canteens and fast-food outlets.

Design and operation

The **professional electric countertop fry top with ribbed griddle** for fast-food outlets features a clean, minimalist design. **It is easy and intuitive to use**, ensuring quick and practical operation.

High-quality materials have been selected for its construction: **the outer structure is made of stainless steel** and **the cooking plate of cast iron**. Durability, strength and hygiene.

The **external dimensions** of the unit are **73 x 50 x 23h cm**, whilst the cooking surface measures **72.7 x 40 cm**: spacious and comfortable. The fry top is suitable for intensive, long-term use, as required in professional kitchens.

The product is also fitted with **splash guards on three sides** for safe operation, a **removable grease tray** and **four** height-adjustable **stainless steel feet** to ensure maximum comfort and safety.

It is electrically powered, **with** a **power rating of 4.4 kW** and a voltage of 230 V. **Purchase a compact appliance that can be easily adapted to professional requirements**.

Cleaning and maintenance

This **professional electric countertop fry top with a ribbed** cooking **surface** is easy to clean – a crucial factor when dealing with food. Simply unplug the appliance, allow the cooking surface to cool down, and then remove any food residues.

Use the right tools and avoid abrasive sponges or harsh cleaning products. Ensure correct and long-lasting use by cleaning with a **soft cloth and mild soap**. Finally, remember to **remove the grease tray** and clean it thoroughly.
