Cod: 1025826300161

Stainless steel dual-temperature refrigerated cabinet with 1 compartment and 2 separate doors, 450 litres, ventilated, -2 to +8°C / -18 to -22°C

Description

The 450-litre single-door dual-temperature stainless steel cabinet has an external and internal structure made entirely of AISI 304 stainless steel and is also height-adjustable thanks to its AISI 304 stainless steel feet. The product features forced-air cooling with a corrosion-resistant finned evaporator, a built-in dual refrigeration unit, a dual digital control unit, automatic condensate drainage, 6 cm insulation thickness, doors with ergonomic handles, easily removable magnetic seals, a chamber with rounded corners, a key-lockable door, and external base and rear panels made of galvanised steel. The dual-temperature cabinet consists of two separate compartments, each measuring 56 x 68 x 56h cm and with a capacity of 225 litres. The upper compartment has an operating temperature range of -2 to +8°C, whilst the lower compartment has a range of -18 to -22°C.

Dimensions

External dimensions	680x860x1970 mm
Internal dimensions	560x680x1120 mm
Packaging dimensions	720x880x2050 mm

Technical specifications

Capacity	450 Lt
Electrical Power	0.9 kW
Frequency	50 Hz
Net weight	150 kg
Operating temperature	-18 -22, -2 +8 °C
Power supply	Electric
Refrigerant gas	R290, R600A
Thermostat	ventilated
Voltage	230 V
Weight including packaging	160 kg

Standard equipment

Included	4 GN2/1 plastic-coated racks and 4 pairs of runners
