Cod: 111900011612842

Electric countertop fry top with smooth griddle, 3.6 kW, 30×60×28h cm

Description

Electric countertop fry top, stainless steel construction. Knobs made from heat-resistant material with functional screen-printed markings on the rim.

Heating is provided by tubular heating elements with stainless steel sheaths positioned in direct contact with the cooking plate. The temperature of the cooking plate is controlled by a thermostat. Operating temperatures between 90°C and 300°C. Manual reset safety thermostat to protect against equipment malfunctions.

A single, large, thick cookingplate with a smooth finish, ensuring excellent heat transfer. Welded splash guard. The plate is mounted on the worktop at a slight angle to allow grease to drain towards the outlet.

Smooth cooking plate.

AISI 304 stainless steel worktop with wide-radius rounded edges for easy cleaning. Front, side and rear cladding in stainless steel.

Large opening in the cooking surface to drain grease into a container situated beneath the cooking surface itself. Grease collection container supplied as standard.

A Teflon plug to seal the drain for cooking with a thin film of oil is available on request.

Laser-cut worktop finish to ensure the worktops fit ‘end-to-end’ and are securely fastened together.

. 100% Made in Italy.

Dimensions

External dimensions	300x600x280 mm
Packaging dimensions	400x700x500 mm

Technical specifications

Electrical Power	3.6 kW
Net weight	19 kg
Operating temperature	+90 +300 °C
Power supply	Electric
Voltage	230 V
Weight including packaging	22 kg
