Cod: 112140010052020

6-burner gas hob with pilot light and static electric oven, 120×70×85h cm

Description

6-burner gas hob with a static electric oven, stainless steel body. Press-formed, double-walled oven door with a sturdy handle. Knobs made from thermosetting plastic.

Heating is provided by sealed burners with a stabilised, overlapping crown flame, available in different power ratings (6.2 kW and 8.5 kW).

Each burner is fitted with a safety gas valve that allows the output to be adjusted from maximum to minimum. Safety is ensured by a thermocouple maintained active by the pilot burner flame.

Hob grids and burners made from RAAF matt-enamelled cast iron, resistant to alkalis, acids and fire.

Hob grilles are positioned on a moulded base with rounded edges to ensure ease of cleaning and to protect against spilt liquids.

Moulded stainless steel drip pans with rounded edges are positioned beneath the burners and can be easily removed for cleaning.

2/1 GN static electric oven with an open compartment. Removable stainless steel oven rack. Oven base made of thick steel and reinforced with a series of ribs.

Insulation of the cooking chamber and oven door is ensured by a layer of high-temperature-resistant ceramic fibre.

Heating is provided by special high-temperature-resistant steel heating elements positioned beneath the base and on the ceiling of the cooking chamber.

Fitted with a thermostat that allows the temperature to be adjusted between 120°C and 300°C. Manual reset safety thermostat to prevent overheating.

Laser-cut worktop finish to ensure a ‘butt-joint’ fit between worktops and secure fastening of the worktops to one another.

Height-adjustable stainless steel feet.

. 100% Made in Italy.

Dimensions

External dimensions	1200x700x850 mm

Technical specifications

Burner Power	6.2 (x3) kW, 8.5 (x3) kW
Gas Power	44.1 kW
Material	stainless steel
Net weight	170 kg
Oven Power	5.4 kW
Power supply	Electric, Gas

Voltage	400 V
