Cod: 93160032262011

3-door stainless steel refrigerated counter with splashback, -2 to +8 °C, 179.5 × 60 × 95h cm

Description

Why buy it?

This **stainless steel refrigerated worktop with a splashback** is the ideal solution for anyone looking for a durable, practical and functional workstation that combines the sturdiness of a steel frame with the convenience of a ventilated refrigeration system. Perfect for restaurants, pizzerias, cafés and catering kitchens, it ensures hygiene and tidiness, whilst allowing you to always have fresh, well-preserved ingredients to hand.

Key features

- **Stainless steel structure**
  Made entirely from stainless steel, it is corrosion-resistant, easy to clean and designed to last for a long time, even in high-intensity professional environments. A material that ensures hygiene and durability in every use.
- **Electronic control panel with digital display**
  Temperature control is simple and precise thanks to the electronic system. The digital display allows you to monitor the set values in real time and always maintain the ideal conditions for food storage.
- **Doors with return springs and magnetic seals**
  The doors are designed to make day-to-day work easier: the return spring ensures automatic closure, preventing energy wastage and cold air loss, whilst the magnetic seals guarantee a perfect seal.
- **Adjustable feet**
  The steel feet, which are easily adjustable in height, allow the table to be adapted to different surfaces and ensure stability even on uneven floors. This is a key feature for those who spend many hours working in the kitchen.
- **Steel splashback**
  The rear splashback protects walls from splashes and dirt, keeping the workspace clean and hygienic at all times. It also makes the refrigerated worktop safer and more practical to use.

Technical specifications

- **External dimensions:** 179.5 x 60 x 95h cm
- **Internal dimensions:** 133.5 x 43 x 56h cm
- **Capacity:** 239 litres
- **Power:** 0.275 kW
- **Refrigerant:** R600A
- **Cooling system:** fan-assisted
- **Net weight:** 103 kg
- **Voltage:** 230 V
- **Included:** 3 shelves with pairs of rails

Dimensions

External dimensions	1795x600x950 mm
Height of the splashback	100 mm
Insulation thickness	60 mm
Internal dimensions	1335x430x560 mm
Packaging dimensions	1825x630x980 mm

Technical specifications

Capacity	239 Lt
Defrosting	electric defrost
Electrical Power	0.275 kW
Energy efficiency class	C
Frequency	50 Hz
Net weight	103 kg
Operating temperature	-2 +8 °C
Power supply	Electric
Refrigerant gas	R600A
Refrigeration	ventilated
Voltage	230 V
Weight including packaging	127 kg

Standard equipment

Included	3 grids measuring 33x43 cm and 3 pairs of rails
