Single-phase mechanical electric pizza oven for pizzerias, with glass door, capacity for 6 pizzas, 1 chamber measuring 108×72×14h cm

Description

A single-chamber electric oven with a capacity of 6 pizzas, which guarantees optimal cooking results thanks to its outstanding features. The oven is fitted with a special heat-retaining seal for optimal insulation and allows two different operating temperatures to be set separately. It features a firebrick cooking surface, insulation made from evaporated rock wool, armoured heating elements, internal lighting, a stainless steel handle and a knob for smoke extraction. The door is 4 cm thick and double-glazed. The product is constructed from stainless steel and pre-painted sheet metal. It boasts a refined design, characterised by the upper hood. This version offers the advantage of a door with a large glass panel to allow maximum visibility inside.

Dimensions

External dimensions	1360x940x413 mm
Internal dimensions	1080x720x140 mm
Packaging dimensions	1440x1060x570 mm

Technical specifications

Amperage	39.1 A
Electrical Power	9 kW
Net weight	119.8 kg
Power of the auditorium heating system	4.5 kW
Power supply	Electric
Sky resistance power	4.5 kW
Weight including packaging	138 kg

Standard equipment

Included	flue outlet knob
