Single-phase mechanical electric pizza oven for pizzerias, with glass door, capacity for 9 pizzas, 1 chamber measuring 108×108×14h cm

Description

A single-chamber electric oven with a capacity of 9 pizzas, which guarantees optimal cooking results thanks to its outstanding features. The oven is fitted with a special heat-retaining seal for optimal insulation and allows two different operating temperatures to be set separately. It features a firebrick cooking surface, insulation made from evaporated rock wool, armoured heating elements, internal lighting, a stainless steel handle and a knob for smoke extraction. The door is 4 cm thick and double-glazed. The product is constructed from stainless steel and pre-painted sheet metal. It features a refined design characterised by its upper hood. This version offers the advantage of a door with a large glass panel to allow maximum visibility inside.

Dimensions

External dimensions	1360x1300x413 mm
Internal dimensions	1080x1080x140 mm
Packaging dimensions	1420x1440x570 mm

Technical specifications

Amperage	57.4 A
Electrical Power	13.2 kW
Net weight	170 kg
Power of the auditorium heating system	6.6 kW
Power supply	Electric
Sky resistance power	6.6 kW
Voltage	230 V
Weight including packaging	190 kg

Standard equipment

Included	flue outlet knob
