Cod: 112230020622232

4-ring cast-iron electric countertop hob, three-phase, 10 kW, 80×70×25h cm

Description

Electric countertop cooker, 4 cast-iron hotplates, stainless steel body. Heat-resistant knobs with functional screen-printed markings on the rim.

Heating is provided by square, radiant cast-iron electric hotplates. Each hotplate has three heating elements, embedded in a layer of insulating material. Each hotplate is fitted with a control switch that allows the power to be adjusted from maximum to minimum across seven settings. Safety is ensured by a temperature limiter located inside the hotplate.

Stainless steel worktop to ensure the plates fit perfectly, facilitate cleaning and protect the electrical components from spilled liquids. Front cladding in AISI 304 stainless steel.

The hotplates are flush with the worktop, creating a smooth surface that makes it easier to move pans around.

A drip tray is supplied as standard.

The worktop finish features laser-cut edges to ensure the worktops fit ‘end-to-end’ and are securely fastened together.

. 100% Made in Italy.

Dimensions

External dimensions	800x700x250 mm

Technical specifications

Electrical Power	10 kW
Net weight	73 kg
Power supply	Electric
Voltage	400 V
