Cod: 112250021782016

Electric cooker with 4 cast-iron hotplates and a 13.65 kW fan-assisted oven, 80×70×85h cm

Description

Electric cooker with 4 cast-iron hotplates and a fan-assisted electric oven, with a stainless steel body. Heat-resistant knobs with functional screen-printed markings on the rim. Moulded, double-walled oven door and a contoured handle with an elliptical cross-section made from AISI 304 stainless steel.

Heating is provided by square, radiant cast-iron electric hotplates. Each hotplate has three heating elements, embedded in a layer of insulating material. Each plate is fitted with a switch that allows the power to be adjusted from maximum to minimum across seven settings. Safety is ensured by a temperature limiter located inside the plate.

Stainless steel worktop to ensure the plates fit perfectly, facilitate cleaning and protect the electrical components from spilled liquids. Front cladding in AISI 304 stainless steel.

The hotplates are flush with the worktop, creating a smooth surface that makes it easier to move pans around.

A drip tray is supplied as standard.

1/1 GN fan-assisted electric oven. The oven base is made of thick steel and reinforced with a series of ribs. Removable stainless steel oven rack.

Insulation of the cooking chamber and oven door is provided by a layer of high-temperature-resistant ceramic fibre.

The oven is heated by special high-temperature-resistant steel heating elements positioned beneath the base and on the ceiling of the cooking chamber. Air circulation is provided by a stainless steel fan driven by a powerful electric motor. Fitted with a thermostat allowing the temperature to be adjusted between 90°C and 300°C. Manual reset safety thermostat to prevent overheating. Option to select various heating modes, including static and fan-assisted heating, as well as bottom-up radiant heating, grill heating and all-round heating.

Laser-cut worktop finish to ensure a ‘head-to-head’ fit between worktops and secure fastening of the worktops to one another.

Height-adjustable stainless steel feet.

. 100% Made in Italy.

Dimensions

External dimensions	800x700x850 mm

Technical specifications

Electrical Power	13.65 kW
Net weight	143 kg
Operating temperature	+90 +300 °C
Power supply	Electric
Voltage	400 V

Standard equipment

Included	1 oven rack
