Cod: 3455

Hot Food Display Case

Description

A display unit designed for the presentation and serving of fried foods, vegetables au gratin, various roasts, etc. A dry-heating display unit, +30°/+90°C, with twin 1,800-watt armoured heating elements, ensuring even heat distribution. Innovative design with a large viewing area and dual display surfaces, including 6 GN 2/3 trays supplied as standard. High-power LED lighting, providing a cool, energy-efficient light to ensure greater product visibility. Stainless steel frame, sides and curved tempered glass front, with easy-to-remove sliding plexiglass panels at the rear. Removable tray for collecting cooking liquids. Front glass flap opens for easy cleaning of the unit. Digital control thermostat. Available in black.
Power supply: 230V.
