Cod: 10426099012001

Stainless steel refrigerated freezer cabinet, 2-door, 1,400 litres, -18 to -22°C, ventilated – EC

Description

The ventilated freezer cabinet from ristoattrezzature.com, made of stainless steel with a single door and a gross capacity of 1,400 litres and a net capacity of 1,300 litres, has an external and internal structure made entirely of stainless steel. The freezer is also height-adjustable thanks to its levelling feet. The interior of the freezer compartment features rounded corners to facilitate cleaning, thereby ensuring practicality and hygiene during use. The cooling system is ventilated, meaning the cold air is produced by an external evaporator with anti-corrosion-treated fins. The anti-corrosion treatment is designed to prevent oxidation that would otherwise occur as a result of frost/condensation forming during normal operation of the freezer. The cabinet features a door with a spring-return mechanism, key-operated lock, a door seal that can be removed without tools, an internal light, a base with rounded corners, and external base and rear panels made of galvanised sheet metal.

Dimensions

External dimensions	1480x830x2010 mm
Insulation thickness	60 mm
Internal dimensions	1360x685x1390 mm
Packaging dimensions	1505x855x2180 mm

Technical specifications

Capacity	1400 Lt
Defrosting	electric defrost
Electrical Power	0.73 kW
Energy efficiency class	D
Frequency	50 Hz
Net capacity	1325 Lt
Net weight	208 kg
Power supply	Electric
Refrigerant gas	R290
Refrigeration	ventilated
Voltage	230 V
Weight including packaging	235 kg

Standard equipment

Included	6 grids and 6 pairs of guides
