Cod: 10471124

LPG gas convection oven, 4 GN 2/3 trays, 4 kW

Description

Why buy it?

- **Efficiency and even cooking:** the **convection** system ensures optimal heat distribution, making this oven ideal for even cooking, whether for sweet or savoury dishes.
- **Compact and robust design:** its compact size and **AISI 430 stainless steel** construction make it perfect for professional kitchens with limited space, whilst ensuring durability and ease of cleaning.
- **Advanced features for superior performance:** with a **double-glazed door** for thermal insulation, an **internal light** to monitor cooking and a **ball-bearing closure with a sealing gasket**, it offers comfort and convenience during use.
- **Versatility in the kitchen:** with an adjustable temperature of up to **270 °C** and the capacity to hold **4 GN 2/3 trays**, it is perfect for handling multiple dishes simultaneously.

Key features

- **Gas-fired convection:** ensures energy efficiency and even cooking, ideal for professional environments with high standards.
- **Capacity** for**4 GN 2/3 trays:** the 34.4 x 32.5 cm trays, spaced 7 cm apart, allow different dishes to be prepared without flavour contamination.
- **Made from AISI 430 stainless steel:** ensures durability, corrosion resistance and ease of maintenance.
- **Non-reverse motor:** designed for consistent heat distribution, preventing cold spots and ensuring perfect cooking results.
- **Double-glazed door:** improves thermal insulation, reducing heat loss and ensuring a safe environment during use.
- **Ball-bearing closure and sealing gasket:** ensures an airtight seal, maintaining a constant internal temperature for optimal results.
- **Internal lighting:** a practical, powerful light that allows you to monitor cooking without having to open the door.

Technical specifications

- **External dimensions:** 62 x 64.5 x 61.5h cm
- **Tray dimensions:** 34.4 x 32.5 cm
- **Distance between baking trays:** 7 cm
- **Weight:** 46 kg
- **Gas power:** 4 kW
- **Fuel:** LPG
- **Voltage:** 230 V
- **Operating temperature:** 0 to +270 °C
- **Frequency:** 50/60 Hz

Dimensions

Baking tray dimensions	344x325 mm
Distance between baking trays	70 mm
External dimensions	620x645x615 mm
Packaging dimensions	700x700x760 mm

Technical specifications

Baking tray capacity	4
Frequency	50/60 Hz
Gas Power	4 kW
Net weight	46 kg
Operating temperature	0 +270 °C
Power supply	Gas
Voltage	230 V
Weight including packaging	50 kg
