Cod: 100810010192060

Combined gas oven for 11 GN 1/1 trays, with steam convection and electromechanical controls

Description

Combined gas oven for 11 GN 1/1 trays, with steam convection and electromechanical controls; AISI 304 stainless steel cooking chamber; fan-assisted cooking and direct steam cooking, controlled via a rotary selector knob; condensate collection tray with drain on the door; door with right-hand side opening and hinge with door lock for controlled opening at 60°, 90°, 120° and 180°

Dimensions

External dimensions	730x855x1231 mm
Packaging dimensions	788x903x1296 mm

Technical specifications

Engines	bidirectional
Frequency	50 Hz
Gas Power	17.5 kW
Net weight	141 kg
Operating temperature	+100 +260 °C
Power supply	Gas
Voltage	230 V
Water resistance rating	IPX3
Weight including packaging	151 kg

Standard equipment

Included	Side supports: 1 right + 1 left, single-phase cable [3G 1.5] L=160 cm, designed for manual cleaning, condensate collection tray with drain on the door, hinge with door lock for opening angles set at 60°, 90°, 120°, 180° and LPG nozzle
