Cod: 112300010142721

2-zone electric induction hob with open compartment, 14 kW, 40×90×85h cm

Description

Stainless steel construction. Handles made from heat-resistant material with functional screen-printed markings around the edge.

Black glass-ceramic hob , 0.6 cm thick. Square radiant heating zones measuring 27x27 cm, mounted beneath the glass and controlled by a potentiometer with 9 power settings. Continuous adjustment of heating power. Under-glass display showing the set power level and any error messages. Protection provided by an over-temperature sensor in the event of dry cooking. Pot presence detection sensor. Sensor for detecting pots with a diameter of less than 12 cm.

AISI 304 stainless steel worktop, 20/10 thick, with wide-radius rounded edges for easy cleaning. Stainless steel front cladding.

Compatible with any type of cookware suitable for induction cooking: iron, cast iron or other ferromagnetic materials. Consistent energy efficiency, even when using cookware of different shapes.

Significant time and energy savings thanks to cooking times and energy consumption halved compared to traditional cooking systems. Improved working environment thanks to reduced heat loss.

Greater safety for the user: only the cookware is heated, whilst the worktop remains cool. The risk of burns is therefore significantly reduced.

Laser-cut worktop finish to ensure a ‘head-to-head’ fit between worktops and a secure fixing of them to one another.

Height-adjustable stainless steel feet.

. 100% Made in Italy.

Dimensions

External dimensions	400x900x850 mm

Technical specifications

Electrical Power	14 kW
Net weight	44 kg
Power supply	Electric
Voltage	400 V
