Cod: 101552146006

White two-tier counter-top refrigerated display cabinet, 141×60×60h cm, with straight glass panels, built-in motor and smooth top

Description

Why buy it?

This **countertop refrigerated display cabinet** is the perfect choice for anyone looking for **elegance, practicality and reliable performance** all in one. With its **modern design**, it offers optimal visibility for products, keeping them fresh and ready for customers. The LED lighting highlights every detail, drawing attention to the contents. Furthermore, it is constructed from high-quality materials, such as **toughened glass** and**polished stainless steel**, to ensure durability and longevity.

Key features

- **Modern and elegant design:**
  Clean lines and high-quality materials make this display cabinet a distinctive feature in any setting, whether in a café or a patisserie.
- **Latest-generation LED lighting:**
  The LEDs provide uniform, energy-efficient lighting, enhancing the visibility of the products on display without significantly affecting energy costs.
- **Sloping display shelf for maximum visibility:**
  The slightly sloping display shelf allows customers to view the products perfectly, enhancing the shopping experience.
- **Removable middle shelf:**
  The removable shelf offers the option to customise the interior space, adapting it to different types of products for maximum flexibility.
- **High-quality materials:**
  Made from durable **toughened glass** and **polished stainless steel**, this display cabinet ensures durability and ease of cleaning, whilst maintaining a professional appearance over time.
- **Built-in motor for a compact design:**
  No additional space is required for motor installation, making this display cabinet ideal for spaces where room is limited.
- **Transparent plexiglass rear panels:**
  The plexiglass panels not only facilitate access for staff but also enhance the product's overall appearance, ensuring optimum protection.
- **Transparent glass roof:**
  Adds a touch of elegance and allows a full view of the products from above as well.
- **Digital temperature control:**
  Adjusts the temperature precisely via the digital control panel, ensuring that the products always remain fresh and at the correct temperature.
- **Independent lighting and compressor control:**
  The ability to control the lighting and compressor separately offers greater operational control, ideal for reducing energy consumption when necessary.
- **Height-adjustable feet:**
  Adapt the display cabinet to your specific needs, even on uneven surfaces, thanks to the adjustable support feet.
