Cod: 112000040442842

Electric benchtop bain-marie with tap, GN 3/4, single-phase, 1 kW, 30×60×28h cm

Description

Electric benchtop bain-marie, stainless steel construction. Knobs made from heat-resistant material with functional screen-printed markings on the rim.

Heating is provided by contact heating elements to ensure heat transfer only towards the bottom of the tank, thereby saving energy. Manually resettable safety thermostat to protect the heating element. Control panel featuring an ON/OFF switch and a thermostat adjustable between 30°C and 90°C, with the sensor bulb immersed in the cooking tank.

AISI 304 stainless steel worktop with wide-radius rounded edges for easy cleaning. Front, side and rear panels in stainless steel.

AISI 304 tank with a drain hole, suitable for trays witha maximum height of 15 cm and capable of accommodating multiple containers up to 3/4 GN.

Elliptical-section handles made from AISI 304. The sink drain is positioned on the worktop and operated by a lever.

Laser-cut worktop finish to ensure ‘end-to-end’ alignment of worktops and secure fastening of the worktops to one another.

. 100% Made in Italy.

Dimensions

External dimensions	300x600x280 mm

Technical specifications

Electrical Power	1 kW
Net weight	16 kg
Operating temperature	+30 +90 °C
Power supply	Electric
Voltage	230 V
