**Cod: 9838036333429**

# Countertop heated display cabinet, 85.6 × 56.5 × 68.6h cm, with straight-sided white glass on all four sides, 160 litres, +30 to +90 °C

## Description

The countertop heated display cabinet is an accessory for professional kitchens, cafés, restaurants, supermarkets and any business that sells hot baked goods.

Features of the heated display cabinet

This countertop heated display cabinet has a temperature range from +30°C to +90°C. The temperature can be adjusted using a convenient knob located at the rear of the unit.

The structure is made of stainless steel and metal, with four glass sides that enhance the display functionality of the cabinet. This allows you to keep sandwiches, toast, rotisserie items, snacks and anything else that might be served to customers warm whilst on display.

Access is facilitated by sliding rear doors, also made of glass. The interior is lit by LED lighting.

Capacity of the countertop heated display cabinet

This model of countertop heated display cabinet can hold up to three chrome-plated shelves (included as standard). The height is adjustable. The total capacity is 160 litres.

Safety instructions for using the catering heated display cabinet

Before switching on the display cabinet, it is advisable to fill the designated water tank and switch on the appliance using the switch located at the rear.

The shelves are removable for easy cleaning with kitchen detergent and a non-abrasive sponge.

Straight-sided heated display cabinet on Ristoattrezzature

In our catalogue, you'll find a wide variety of heated display cabinets for the catering industry, ideal for keeping items such as desserts, rotisserie dishes, sandwiches, piadinas and toast warm.
