Cod: 9838152333430

Countertop heated display cabinet 119.8 × 56.5 × 68.6h cm, with straight-sided white glass on all four sides, 200 litres, +30 to +90 °C

Description

The **professional countertop heated display cabinet** for fast food outlets is a piece of equipment designed for all catering businesses that wish to keep their food warm. **It is particularly suitable for delicatessens, rotisseries, fast food outlets and restaurants**.

You can easily install Ristoattrezzature's **professional countertop heated display cabinet** and create a practical and functional workspace.

Offer your customers tasty, aromatic products with our countertop display case, designed for small and medium-sized businesses. **Find out all the details in the technical specifications**.

Design and operation

The design of **the professional countertop heated display cabinet** for bars and rotisseries is clean and minimalist. It is constructed from metal and stainless steel and features straight glass panels on all four sides to showcase food to its best advantage: from first courses to desserts. The **rear glass panels are sliding** to allow easy access, and **the interior lighting is LED**.

The external dimensions of this professional countertop heated display cabinet for restaurants are 119.8 x 56.5 x 68.6h cm; it has a total capacity of **200 litres** and is powered by electricity at a voltage of 230 V and a power rating of 1.5 kW.

It comes with **3 practical, removable chrome-plated racks** to ensure maximum hygiene and better use of the interior space.

You can easily set the **operating temperature between +30 and +90 °C** using the graduated dial fitted to the rear of the unit.

Choose the ideal professional equipment for your business and ensure you always provide your customers with the very best service.

Cleaning and maintenance

Its compact design and ease of cleaning make this **professional countertop heated display cabinet** for rotisserie an essential item for any catering business.

Look after your professional equipment by cleaning every part of it regularly, both inside and out. Let's see how.

For safety's sake, before you begin, **remember to switch off the appliance**, then remove any food and grills from inside and start cleaning the unit using:

- **a non-abrasive sponge**
- a**mild detergent**.

Follow the same procedure for cleaning the glass panels.

Why this is the right product for you

The **professional countertop heated display cabinet** for restaurants is designed to offer high performance whilst taking up minimal space. Keep sandwiches, toast, pasta dishes and tarts warm for your customers and tempt them with a unit that showcases your products.

A **compact, versatile and highly practical** unit that's indispensable in the kitchen. **Ristoattrezzure's catalogue offers various models** and sizes of display cabinets to showcase food to its best advantage and speed up service. Adjustable internal racks and adjustable feet at the base adapt to every need.

Choose the ideal size and add functionality to your restaurant.
