Cod: 12595

Electric pizzeria oven with mechanical operation, 2 inner chambers measuring 66×99×14h cm, capacity for 6+6 pizzas, complete with stand – SR

Description

Why buy it?

This **electric pizza oven is** designed to deliver **professional performance, ease of use and long-term reliability**. Thanks to its robust construction and spacious cooking chamber, it allows you to handle service with ease, even at peak times. Its capacity to cook **up to 6+6 pizzas at the same time** and its ability to reach high temperatures make it ideal for pizzerias, restaurants, pubs and catering businesses seeking **fast, even cooking** whilst consistently maintaining the high quality of the final product. Furthermore, the attention to construction details and the materials used ensure **durability, safety and ease of maintenance**, making it a reliable investment for any professional kitchen.

Key Features

- **Professional-grade stainless steel construction**
  The oven is made from **high-quality stainless steel**, a material highly valued in the catering sector for its **robustness, hygiene and durability**. This construction ensures it can withstand intensive use without compromising performance, making the oven perfect for professional environments where reliability and durability are essential. The smooth surfaces also make cleaning and maintenance easier, helping to maintain **high hygiene standards** and reduce the time spent managing the oven.
- **Fast and efficient cooking**
  Thanks to the power of its heating elements and its ability to reach high temperatures, this oven enables **extremely fast cooking**, capable of cooking a pizza in around **5 minutes**. This feature allows you to optimise workflow during service, improving kitchen productivity and ensuring pizzas are always cooked to perfection.
- **High-strength explosion-proof glass panel**
  The door is fitted with **explosion-proof glass designed to withstand high temperatures**, offering safety and reliability even during the busiest periods. This feature ensures greater protection and durability, whilst providing a clear view of the oven's interior.
- **Simple and reliable mechanical controls**
  The oven is equipped with **intuitive mechanical controls**, ideal for those seeking reliable and easy-to-use equipment. Thanks to the manual adjustment of temperatures and heating elements, you can precisely manage the pizza-baking process and adapt it to different operational requirements.
- **Professional interiorlighting**
  The oven is fitted with **a high-temperature-resistant internal lighting system**, designed to ensure optimal visibility during cooking. This feature allows the pizza chef to easily check the degree of doneness of the pizzas and to manage the process more precisely and efficiently.

Technical Specifications

- **External dimensions: 97** .5 x 121.5 x 74.5h cm
- **Internal dimensions:** 66 x 99 x 14h cm
- **Pizza diameter:** Ø 32 cm
- **Power supply:** Electric
- **Operating temperature:** 45 – 450 °C
- **Electrical power:** 14.4 kW
- **Top heating element power:** 7.2 kW
- **Base heating element power:** 7.2 kW
- **Pizza capacity:** 6+6
- **Voltage:** 400 V
- **Frequency:** 50 Hz

Standard equipment

Supplied with**:** oven stand.
