Cod: 104150042393004

Single-phase electromechanical dishwasher and glasswasher with a 50×50 cm square basket and built-in rinse aid dispenser

Description

Why buy it?

This **electromechanical dishwasher and glasswasher** is the perfect solution for anyone looking for a robust, reliable and efficient machine for the professional washing of crockery and glasses. Ideal for cafés and restaurants, it is designed to guarantee impeccable results whilst prioritising energy efficiency. With a compact and versatile design, it adapts easily to a variety of working environments, offering convenience and high performance.

Key features

- **Sturdy stainless steel construction**:
  Made entirely from **stainless steel**, this dishwasher guarantees a long service life and optimum resistance to corrosion, even after years of intensive use. The high-quality material also ensures impeccable hygiene, which is essential in professional environments.
- **Electromechanical controls for simple operation**:
  The electromechanical technology allows for intuitive and immediate use, reducing the need for specific staff training. This feature ensures **operational reliability** and simplified maintenance compared to digital models.
- **50x50 cm square basket**:
  The basket's size allows for the washing of a wide variety of crockery, including glasses, plates and cutlery. Perfect for meeting the needs of establishments with high washing volumes.
- **High-performance impellers and spray arms**:
  The precision-engineered impellers and powerful wash jets ensure exceptional results, removing even the most stubborn dirt. Every cycle guarantees **perfectly clean and sparkling** crockery, ready for immediate reuse.
- **Energy savings thanks to special heating elements**:
  The innovative heating elements reduce electricity consumption, offering a significant financial benefit without compromising performance. This translates into tangible savings for your establishment, as well as a lower environmental impact.
- **Available options**:
  Customise the dishwasher with **a detergent dispenser** and **drain pump** to further improve efficiency and tailor it to your specific operational needs.

Technical specifications

Dimensions:
Useful height: **33 cm**
Basket dimensions: **50x50 cm**
External dimensions: **58.5x65x84h cm**

Performance and power supply:
Power supply: **Electric**
Boiler capacity: **7 litres**
Tank capacity: **18 litres**
Frequency: **50/60 Hz**
Electrical power: **5.1 kW**
Pump power: **0.65 kW**
Pressure: **2–4 bar**
Boiler heating element: **4.5 kW**
Tank heating element: **2.5 kW**
Cycle time: **180 seconds**
Voltage: **230 V**

Standard fittings:
Includes **1 dish basket**, **1 glass basket** and a **rinse aid dispenser**, to ensure maximum versatility right from the first use.

N.B.

The product is supplied without a drain pump. If you have a wall-mounted drain rather than a floor drain, you will need to purchase the drain pump together with the machine; another solution would be to raise the machine using a support so that it is higher than the drain. However, you can always purchase the drain pump at a later date and have it fitted by your own technician at your own expense.

PLEASE NOTE: with a floor drain and the correct gradient, A DRAINAGE PUMP IS NOT REQUIRED. If, however, the wall drain opening is more than 10 cm, you must use the drainage pump.

Dimensions

Basket dimensions	500x500 mm
Clear height	330 mm
External dimensions	585x650x840 mm
Packaging dimensions	700x650x900 mm

Technical specifications

Boiler capacity	7 Lt
Boiler heating element	4.5 kW
Cycle time	180 "
Electrical Power	5.1 kW
Frequency	50/60 Hz
Net weight	60 kg
Power supply	Electric
Pressure	2 - 4 bar
Pump power	0.65 kW
Rinse temperature	85 °C
Tank capacity	18 Lt
Tub resistance	2.5 kW
Voltage	230 V
Wash temperature	55 °C
Weight including packaging	70 kg

Standard equipment

Included	1 basket for plates, 1 basket for glasses and 1 rinse aid dispenser
