Cod: 4430

Single-phase 3-tray 1/1 GN electric convection oven with steam

Description

A digital electric convection oven with steam function, designed for small catering outlets that wish to offer their customers ready-made dishes or prepare quick gourmet recipes using a compact appliance with innovative features. The digital display, with 99 programmable settings and 4 cooking options, allows you to manage your recipes with complete freedom. Thanks to the programmable delayed start function, you can decide in advance when to cook your dishes, further customising the cooking process with the direct steam function, which features automatic adjustment via a 10-position digital selector.
