Cod: 4433

Electric Convection Oven with Humidification, 4 1/1 GN Trays

Description

This digital electric convection oven with a humidification function is the ideal appliance for small catering outlets that need to heat filled rolls and frozen foods in a simple and intuitive way. Thanks to the electronic control panel, featuring 99 programmes, you can cook in four stages and prepare your favourite recipes whilst reducing cooking times, achieving results that your customers will appreciate. Your culinary creations will be succulent and flavourful thanks to the one-touch humidification function, which allows you to customise every type of cooking process.
